

JARVIS RESTORATION

CUSTOMER REVIEWS

I am so ecstatic after this company finished the work on my house. I couldn't have asked to work with a better company. I had made the HUGE mistake of listening to my insurance adjuster and used their preferred vendor to start my job. I was recommended to Jarvis by my plumber originally and decided to take my insurance adjusters advice and used "their guys." I was warned not to do this as they likely would cut corners to try and save themselves some money. Jarvis restoration had already looked at the damage before my adjuster came out and told me what needed to be done. The insurance company's vendor told me over half of the work Jarvis restoration suggested didn't not have to be done. 1 week later guess what started growing in my house ? Mold! There was a terrible smell and I kicked the first company off the job and called Jarvis back in. The emergency and mold crew were so great and removed everything the other guys didn't catch and got rid of the smell. After everything was finished by my project manager, my place is in perfect condition and I will only be calling them again in the future if there is an issue.

Our neighborhood is notorious for slab leaks and we have had a few. We had Jarvis restoration come out for our latest issue and they did an amazing job. They were great with working with my insurance company who wanted to try and give us a small amount of money for a big problem. Jarvis helped get everything covered. Our home is beautiful now and we wanted to thank them for all of their hard work.

On Mother's Day, my wife and I ended up with a real nightmare, one of our toilets leaked into our lower level and the place was a mess. I searched online and found Jarvis Restoration. They immediately made an appointment to come out and assess our situation and begin remediation of our mess. In the past we have found SoCal really lacks quality contractors. We are happy to say Jarvis is excellent!!

Jarvis Restoration was a great company to work with! We were stuck with a huge leak damage repair and restoration and Jarvis took complete care of the job. Casey was the best project manager we could have asked for! He handled everything from start to finish. He was especially helpful with dealing with the complicated insurance billing. Thanks so much Casey and Jarvis team! We highly recommend Jarvis to our friends and family.

This is the second time in less than a year we have had to deal with a pipe leak in our kitchen. We used Jarvis in both cases. While dealing with a slab leak is never easy, Jarvis made it as painless as possible. They handled every step of the process from demo to working with our insurance adjuster for approvals to complete rebuild. Casey and his team did an excellent job on both rebuilds. It really takes a lot of stress out of the process not having to deal with multiple contractors. They were able to handle all aspects of the job and in both cases everything turned out good as new!
